## Technical Skills

---

**Languages:** Java, Python, SQL, JavaScript, HTML/CSS

**Frameworks/Libraries:** React, Angular, Spring Boot, Bootstrap

**Databases:** MySQL, Oracle Database, PostgreSQL

**Tools:** Git, IntelliJ, VS Code, Eclipse, Power BI

## Certifications

---

AWS Cloud Practitioner , CompTIA Project+ , Java Developer , Udacity Frontend Developer

## Experience

---

### Full-Stack Web Developer

**August 2021 – March 2024**

*Train Like A Pro*

*Bethesda, MD*

- Designed and developed the company website using HTML, CSS, and JavaScript, improving user engagement and responsiveness across devices.
- Implemented a PayPal payment gateway using PHP to enable direct payments for personal training services, increasing company revenue by allowing direct transactions outside of county contracts.

### Software Development Intern

**March 2024 – July 2024**

*Washington Software*

*Gaithersburg, MD*

- Developed "Drink Dish," an app using React, Node.js, MySQL, and AWS, offering drink recommendations based on meal selections.
- Created automated workflows in Power Automate for task notifications and utilized Power BI for sales performance and customer analysis.

## Education

---

### Western Governors University

**Millcreek, UT**

*Bachelor of Science in Computer Science*

### Montgomery College

**Rockville, MD**

*Associate of Science in Information Science*

## Projects

---

### Full-Stack Vacation Booking Application | *Spring Boot, Angular, MySQL*

- Developed a full-stack application using Spring Boot for the backend and Angular for the frontend, integrating RESTful APIs for client-server communication.
- Implemented advanced features such as multithreaded language translation, time zone messaging, and currency exchange, and containerized the application with Docker for cloud deployment.

### Interactive World Map | *Angular, JavaScript, Worldbank API*

- Developed an Angular component integrating an SVG world map for dynamic country highlighting and detailed information display.
- Built Angular services to fetch country details, designed a dual-column layout for map and information, and utilized Angular routing for smooth navigation.

### Daily Scheduler App | *React Native, Spring Boot, MySQL, AWS, Expo*

- Developed a full-stack mobile application using React Native and Spring Boot, hosted on AWS with Elastic Beanstalk and RDS for scalability and reliability.
- Implemented task and meeting management features, leveraging Expo for cross-platform development and deployment.
